MULTIDECK CHILLED - PASTORFRIGOR GENOVA

The Genova Multi-deck has unique features typical of a full size supermarket case but with the flexibility of integral (plug-in) refrigeration. Features such as the low height front, reduced canopy and full depth shelves allow for a larger display area than typical integral multi-decks.

The Genova Multi-deck is available in 4 lengths and can be multiplexed (joined) to make a virtually seamless line-up.

GLASS DOOR INSERT AND SHELVING SYSTEM

Modular Chiller and Freezer Glass door insert system for display coolrooms and freezer rooms. Frames are available in 1, 2, 3, 4 & 5 door modules and can be easily joined to make any combination of doors required.

All doors are reversible and can be LH or RH hinged. (LH Opening Standard). Self closing condensation free doors.

CHILLER DOORS - HEATED, DOUBLE GLAZED, ARGON FILLED						
Black Finish – Heated Frame – LED Mullion Lights with Transformer						
Doors		1 Door	2 Door	3 Door	4 Door	5 Door
Width	mm	760	1476	2204	2928	3660
Height	mm	1775				

COSELL GLASS DOOR INSERT SYSTEM ADVANTAGES

- Reduced energy costs, combination storage and display rooms can be built to allow rear loading of chilled or frozen product without the need for a separate refrigeration system
- Glass door displays are considerably more energy efficient than open front display cabinets
- Better space utilisation, expensive shop footprints can be better maximised using a vertical glass door display system

SHELVING - 5 SHELVES PER DOOR WITH TELESCOPIC POSTS										
Shelves supplied complete with brackets and front / rear stoppers										
Doors	1	2	3	4	5	6	7	8	9	10
Posts	2	3	4	5	6	8	9	10	11	12
Shelves	5	10	15	20	25	30	35	40	45	50

SHELVING

- Fully adjustable shelving system
- Telescopic posts, adjustable to suit the height of the room
- Standard 5 tiers per bay
- Robust, black powder-coat steel shelves 715mm wide x 585mm deep

GRAVITY FEED SHELVING SYSTEM

The patented 'Roller deck' and divider system simply sits on the shelf and the gradient of the product angle is adjusted through the shelf bracket. The CoSell Gravity Feed Shelving matches our existing shelving. Wire dividers, acrylic front and rear stoppers ensure that the products can be uniformly displayed, easily picked by the customer and quickly reloaded by staff.

FLEXIBLE EQUIPMENT FUNDING SOLUTIONS TO
Grow your business

J007294

Whether you are a small family restaurant, franchise group or catering service, securing the equipment you need can be a considerable upfront cost.

Silver Chef's Rent-Try-Buy solution is a 12-month agreement that lets you try before you buy and save your working capital rather than spending it on depreciating assets.

You have the option to upgrade your equipment at any time or purchase and receive a 50% gross rental rebate or return the equipment at the end of 12 months if it isn't right for you.

It reduces your risk so you can turn your hospitality dream into a reality.

Visit Silver Chef at **www.silverchef.co.nz** to get started today!

Co Sell are proud to represent General Fushi as the exclusive agent for their full range of Supermarket and Convenience store cabinets.

General Fushi are a leading edge manufacturer and trusted supplier to some of the world's largest supermarket chains including Walmart, Tesco and 7/11. A recent development is a partnership with Alibaba who have built more than 100 new technology based Hypermarket stores in China in the last 2 years.

In addition to supermarket display cabinets General Fushi also specializes in the manufacture of compressor racks, heat exchangers and other specialty refrigeration equipment. They have significant experience in the supply and installation of Water Cooling systems (water-loop) for Supermarkets.

General Fushi cabinets are built using leading brand, quality components, machinery and techniques. They have 4 certified in-house testing laboratories and a team of quality engineers to ensure that all equipment meets the required AS/NZ market standards including MEPS (Minimum Energy Performance Standards).

All General Fushi cases are built to minimise running costs utilising energy-efficient coils and EC fan motors for optimum performance. Options such as display doors for multi-deck cabinets are a standard solution. The combination of durable construction with quality components and engineering ensures a long, commercial life for all General Fushi equipment supplied by Co Sell.
