CONTENTS

DELLWARE DW40T (No Compressor)
Silent Absorption Chiller

Dimensions:	402mm W x 440mm D x 560mm H	
Capacity:	40 litres	
Temperature range:	+2°C / +8°C	
Features:	Absorption cooling	Triple Glazed Glass door with lock
	Glass door with lock	Suitable for Hotels, Motels, Rest Homes & Offices
	Manual thermostat	

$535

DELLWARE SC20
Counter Top Impulse Chiller

Dimensions:	356mm W x 420mm D x 480mm H	
Capacity:	20 litres (holds 2 x 2 litre milk bottles)	
Temperature range:	+1°C / +10°C	
Features:	Fan assisted cooling	LED internal light
	Glass door with lock	1 fixed shelf plus base shelf
	Manual thermostat	

$625

DELLWARE SC20-MILK
Counter Top Milk Chiller (for Automated Coffee Machines)

Dimensions:	356mm W x 420mm D x 480mm H	
Capacity:	20 litres (holds 2 x 2 litre milk bottles)	
Temperature range:	+1°C / +10°C	
Features:	Fan assisted cooling	LED internal light
	Glass door with lock	4 x 6mm milk hose holes per side
	Manual thermostat	

$645

HUSKY SC50W
Counter Top Impulse Chiller

Dimensions:	435mm W x 495mm D x 510mm H	
Capacity:	50 litres	
Temperature range:	+1°C / +10°C	
Features:	Fan assisted cooling	LED internal light
	Glass door with lock	Manual thermostat
	2 x chrome wire shelf (3 adjustment points)	

$695

DELLWARE J85
Under Bench Chiller

Dimensions:	506mm W x 565mm D x 780mm H	
Capacity:	85 litres	
Temperature range:	+1°C / +10°C	
Features:	Fan assisted cooling	LED internal lighting
	Curved double glazed glass door, with lock	3 adjustable shelves
	Manual thermostat	Digital temperature display

$825

TEFCOLD UR200SG
Under Counter Chiller

Dimensions:	600mm W x 600mm D x 850mm H	
Capacity:	127 litres	
Temperature range:	+2°C / +8°C	
Features:	Fan assisted cooling	3 adjustable shelves
	Glass door with lock	Digital thermostat and temperature display
	LED Internal light	Stainless steel exterior/white interior
	Reversible door-POA	

$1,495

TEFCOLD FS1220
Single Door Chiller

Dimensions:	595mm W x 600mm D x 1315mm H	
Capacity:	215 litres	
Temperature range:	+1°C / +10°C	
Features:	Fan assisted cooling	4 adjustable shelves
	Glass door with lock	Manual thermostat
	LED Internal light	Temperature display
	Adjustable feet	White interior/exterior

$1,725

Vertical Display Chillers

TEFCOLD FS1280

$1,825

Dimensions:	595mm W x 600mm D x 1840mm H
Capacity:	317 litres
Temperature range:	+2°C to +8°C
Features:	Fan assisted cooling
	Glass door with lock
	LED Internal light
	4 adjustable shelves
	Manual thermostat
	Temperature display
	Adjustable feet
	White exterior/interior

TEFCOLD FS1380

$1,895

Dimensions:	595mm W x 600mm D x 1980mm H

SPECIALTY CUSTOM BUILT DISPLAY CABINETS |
KINCO

KINCO is a leading custom build manufacturer based in Taiwan. Their main point of difference is their design, manufacture, assembly and testing processes are completed in house where quality control can be rigorously monitored.

KINCO manufacture predominantly in stainless steel and powder-coated finishes however they also produce their own marble and granite and bend their own glass, meaning they can provide quick lead times in a variety of quality finish options.

Many of the leading global food chains have turned to Kinco for customised display case solutions. These include Starbucks, Gloria Jeans, Coffee Club, Carls Jnr and McCafé.

KINCO manufacture impressive display and storage cabinet solutions for a wide variety of applications including; Bakeries and Cafés, Delis and Restaurants, Chocolate displays, Gelato and Ice-cream showcases, Specialty display and storage cabinets.

Let us know your requirements and we'll provide a detailed solution to suit your needs and exceed your expectations.

GLASS DOOR RETROFIT SYSTEM

Energy Saving is a key focus of the CoSell business. No one factor can provide a more dramatic energy cost reduction than fitting glass doors onto existing open Multidecks and Glass sliding lids onto Trough freezers.

The Energy reduction can be as much as 50% providing a relatively short pay back period and sustained long term cost savings for the business.

Glass doors do not only provide energy saving, they also dramatically improve the temperature performance of the chiller or freezer which in turn prolongs the shelf life and integrity of the food.

Cold aisles are also an issue in many stores with customers unlikely to prolong shopping due to the cold so they will in effect buy less per store visit.

Retrofitting Glass doors addresses this issue and dramatically improves customer's comfort.

The CoSell Glass Door Retrofit System can be tailored to nearly all models of Multideck or Trough Freezer.

LET OUR EXPERIENCE HELP YOU FIND THE RIGHT SOLUTION FOR YOUR STORE.

GLASS DOOR INSERT AND SHELVING SYSTEM

Modular Chiller and Freezer Glass door insert system for display coolrooms and freezer rooms. Frames are available in 1, 2, 3, 4 & 5 door modules and can be easily joined to make any combination of doors required.

All doors are reversible and can be LH or RH hinged. (LH Opening Standard). Self closing condensation free doors.

CHILLER DOORS - HEATED, DOUBLE GLAZED, ARGON FILLED							
Black Finish – Heated Frame – LED Mullion Lights with Transformer							
Doors			1 Door	2 Door	3 Door	4 Door	5 Door
Width	mm		760	1476	2204	2928	3660
Height	mm		1775				

COSELL GLASS DOOR INSERT SYSTEM ADVANTAGES

- Reduced energy costs, combination storage and display rooms can be built to allow rear loading of chilled or frozen product without the need for a separate refrigeration system
- Glass door displays are considerably more energy efficient than open front display cabinets
- Better space utilisation, expensive shop footprints can be better maximised using a vertical glass door display system

SHELVING - 5 SHELVES PER DOOR WITH TELESCOPIC POSTS									
Shelves supplied complete with brackets and front / rear stoppers									
Doors	1	2	3	4	5	6	7	8	9	10
Posts	2	3	4	5	6	8	9	10	11	12
Shelves	5	10	15	20	25	30	35	40	45	50

SHELVING

- Fully adjustable shelving system
- Telescopic posts, adjustable to suit the height of the room
- Standard 5 tiers per bay
- Robust, black powder-coat steel shelves 715mm wide x 585mm deep
GRAVITY FEED SHELVING SYSTEM

The patented 'Roller deck' and divider system simply sits on the shelf and the gradient of the product angle is adjusted through the shelf bracket. The CoSell Gravity Feed Shelving matches our existing shelving. Wire dividers, acrylic front and rear stoppers ensure that the products can be uniformly displayed, easily picked by the customer and quickly reloaded by staff.

GLASS DOOR INSERT AND SHELVING SYSTEM

Prices shown are for frames complete with doors.

CHILLER DOORS - HEATED, DOUBLE GLAZED		
OPENING	**SIZE (WIDTH X HEIGHT)**	**PRICE**

HANG SELL SOLUTIONS

Worried about the temperature integrity of your Hang Sell products, or just want to improve your display to encourage more sales?

Here are some innovative solutions from CoSell tailored for these products.

GLASS DOOR HANG SELL

PS GD (glass door) Hang Sell is designed to fit our 1,2 & 3 Door ICCOLD Vertical Glass Door Chiller range but will also fit other models of glass door chiller.

The Hang Sell frame simply fits directly onto the shelf and each kit is supplied with 5 x 300mm deep prongs with price ticket flappers.

MODEL PS GD HANG SELL

- Supplied with 2 sizes of cross bars to suit a variety of products
- 5 x 300mm deep Hang Sell prongs with ticket flappers
- Frame dimensions 508mm wide x 405mm deep
- 304 Stainless steel
- Supplied in a kit, ready to install

Price $260
MULTIDECK HANG SELL

PS MD (Multideck) Hang Sell is a unique design that sits on top of an existing shelf.
Advantages of this system include;

- Better temperature integrity as the air curtain isn't disturbed.
- Better display as the product is at the front of the shelf instead of the rear of the chiller.
- Shelf lighting remains in place to further enhance the product display.
- Can fit most models of Multideck

MODEL PS MD900 HANG SELL

- Adjustable cross bars to suit a variety of products
- 8 x 300mm deep Hang Sell prongs with ticket flappers.
- Frame dimensions 900mm W x 405mm D
- 304 Stainless steel
- Supplied in a kit, ready to install

Price $395

MODEL PS MD1200 HANG SELL

- Adjustable cross bars to suit a variety of products
- 10 x 300mm deep Hang Sell prongs with ticket flappers.
- Frame dimensions 1200mm W x 405mm D
- 304 Stainless steel
- Supplied in a kit, ready to install

Price $445

WIRELESS TEMPERATURE MONITORING
MSX Temperature Monitoring is a fully managed solution, we can take care of the installation, configuration, training and maintenance nationally. MSX wireless sensors can easily be installed in coolrooms, freezers, display cabinets and more.

Alarm notifications are sent instantly via SMS and email, and hourly summary reports can be sent daily to your inbox for compliance purposes.

MSX SOLVES 3 SIGNIFICANT PROBLEMS:

Finding out too late about an equipment malfunction can result in thousands of dollars worth of damage and product loss.

Manually checking and recording temperatures several times a day for food safety reporting can add up to hours of lost time.

Using paper to record temperature is error-prone and easy to lose or damage. Trying to find data later is a slow manual process.

MSX has been developed in New Zealand to suit the needs of many industry groups including:

- Supermarkets and Convenience stores
- Food Processors and Manufacturers
- Hotels and Restaurants
- Fast Food Chains
- Laboratories -Pharmaceutical and Vaccine storage
- Cold Storage-warehousing, distribution and transport

The batteries last well over a year and all data is available to you 24/7 on our industry leading web platform on desktop and mobile.

RCW-2100 DEVICES

Operating Temperature:	-30°C to +65°C
External Sensor Range:	-55°C to +155°C

Technical specifications may change without notice.

DC Fan Motor in models 100 to 800, AC Fan Motors in models 900 to 1200.
Multi functional PCB Board with LED display gives the unit ability to operate with functions such as thermostat or a pump down cycle.
Pump down function optional. Fan speed controlled by actual system load.

Units complete with as standard - filter drier, receiver, pressure relief valve, sightglass, HP/LP pressure switches, oil separator, service valves, HP&LP service gauges, crankcase heater, electrical isolater switch, contactor & overload, PCB & electrical components fully wired.
Suction accumulator and liquid line solenoid valve on LT Units only.

TEKO ROXSTA SERIES

CoSell is proud to represent Teko as the exclusive New Zealand agent for their high-performance CO_2 refrigeration systems.

CO_2 solutions are energy efficient with one of the lowest negative impacts on the environment. Teko is the world leader in terms of innovation, energy efficiency and build quality. All units are made in their German factory with cutting-edge technology and adhere to strict European standards. Teko employ a large team of engineers with a drive for perfection. Every unit is made with the best components and is tested with helium, providing customers the reassurance of a problem free solution.

CoSell shares the same ambition to provide quality solutions for our customers..

- **World leaders in CO_2 technology**

- **World leaders in energy efficient CO_2 design**

- **World leading tube processing centre with fully automated Pipe Bending creating reduced brazed joints.**

- **Sound Proofing housing creating one of the quietest units in the world**

- **Fast build times**

- **Only World leading components used**

- **Helium leak test on every unit up to 1 g/year.**

LED LIGHTING - COOLROOMS AND FREEZER ROOMS

25W LED Light V-W-025 $55

1 lamp sufficient for rooms up to 2.4m³

Dimensions:	194 x 92.6 x 57.5mm	
Features:	Max power: 25W	Protection grade: IP65
	Working temperature: -40°C - 66°C	Working humidity: 10% - 95%
	Installation: ceiling/wall by screws	Colour temperature: 6000K
	Material: Aluminium lamp body base, PC cover, aluminium PCB board, waterproof LED driver, rubber cable, VDE cable	

ENERGY SAVING NIGHT BLINDS

PVC1220 Night Blinds $160

Dimensions:	1220mm long x 1800mm drop
Features:	PVC Double action manual night blind
	Easy fit system suitable for most models of multidecks
	Other sizes options available-POA

Cloth1220 Night Blinds $225

Dimensions:	1220mm long x 1800mm drop
Features:	Manual pull up blind with retaining hook
	Easy fit system suitable for most models of multidecks

DIGITAL TEMPERATURE CONTROLLERS

PJEZC00000 Carel-Easy $215

Dimensions:	71mm x 29mm Standard mounting size
Applications:	Coolrooms/Freezer rooms, Chiller & Freezer cabinets
Features:	2 x Temperature probes
	Power Supply 240 Vac
	3 relays, Compressor 8 Amps, Defrost 8 Amps, Fans 8 Amps
	2 x NTC temp probe inputs
	1 digital or 3rd NTC temp probe input
	Internal audible alarm

ECB1000Q Elitech - Multi Electric Control Box $395

Dimensions:	262mm L x 190mm H x 85mm D - Standard mounting size
Applications:	ECB-1000Q is widely used for the small and medium size cold storage, with the function of refrigeration, defrost, fan, light control, alarm and time display.
Features:	Temperature measuring range -50°~99°C
	Power Supply 220 Vac
	Relay capacity of Compressor - 50A/240VAC Max
	Alarm 5A/220VAC storage temperature
	Operating temperature -5°C~60°C
	Sensor Type: NTC(10KΩ/25°C, B-3435K)

LED LIGHTS - GLASS DOOR CHILLER OR FREEZER INSERTS

The CoSell LED Lighting System can be easily retrofitted into an existing door insert.

Upgrading from fluorescent tubes to energy efficient, bright LED's makes sound commercial sense and will lift the quality of your display.

Meanwell LED driver

24 Watt Twin Middle LED

14 Watt Single LED

1500mm long

LED LIGHT COMBO's		
1 door	2 x LED Tubes, 1 x Driver	**$295**

WHAT ELSE DO WE DO?

SERVICE AND INSTALLATION

Our team of skilled technicians install, service and maintain all of the equipment that we sell.

We provide 24 hour/7 day service and partner with the best regional service companies to provide our customers with nationwide coverage. Integral to the success of the CoSell business is the quality of people. Both our installation teams and service technicians are highly skilled and trained in the latest techniques to meet the industry standards. Our commercial refrigeration installations teams are well regarded in the industry as being dynamic diligent technicians that are customer focused. We often exceed customers' expectations with minimal disruption to the business but great attention to detail.

Our service technicians are experts in their field and focus on providing the right solutions to improve efficiences and reduce costs whilst future proofing your refrigeration needs. Maintenance of refrigeration equipment is vital in extending the commercial life of the customer's investment. It will also reduce down time and reduce product losses.

Our National Maintenance Programme (NMP) is a customisable automated system to provide customers with assurance their equipment is kept in good working order. NMP can be designed to suit each customer site requirements. The refrigeration industry is constantly evolving, with a greater focus than ever before on energy efficient and sustainable systems with reduced carbon emissions. Like always it's important to seek professional advice and partner with a company that recognises the value of forming great long-term relationships with its customers.

CoSell prides itself on offering sound practical advice and providing quality, cost effective solutions for its customers.

RENTALS AND FINANCE

We can offer a variety of options for rental, lease and finance on our equipment to suit our customers requirements. Let us know your needs and we'll find the best solution to suit.

SPECIALTY PRODUCTS

If you can't find what you're looking for in this catalogue please contact us and we'll let you know what options may be available from our extensive supplier network. We look forward to your enquiry.

EXPORT

CoSell regularly supplies refrigeration equipment and expertise to customers throughout the Pacific Islands.

Care is taken to select the correct solution for the prevailing ambient conditions.

TERMS AND CONDITIONS

Prices shown are ex Auckland and exclude freight and installation unless otherwise stated.

WARRANTY

Conditional 12 months parts and labour.

GENERAL

CoSell endeavours to keep technical product information current.
Our manufacturers however are making continual improvements to their products and some specifications may change without notice and without CoSell incuring any obligation.
